## AQUALUNG LEG3ND ELITE Black Edition

The **Leg3nd Elite Black Edition** is the perfect combination of high function and stunning design. An aesthetic masterpiece made with stainless-steel parts, intuitive ergonomics are at your fingertips. Diving experts will appreciate the technical precision of this high-performance regulator.

### Technical Features

1<sup>st</sup> stage

**ACD** **AUTO CLOSURE DEVICE**  
ACD prevents water and debris from reaching 1<sup>st</sup> stage parts or lubrication, maintaining oxygen compatibility and extending life between services.

**BLACK COATING**  
Durable stainless-steel parts are coated in a black Titadur® treatment for superior durability.

**DE-ICE**  
Ice formation is deterred by deep ribs which provide increased surface area, an overmolded cap, and an integrated dry chamber.

**PERMANENT DRY CHAMBER**  
Dry chamber protects internal parts from water or contaminant damage, providing extreme durability.

**PERFORMANCE HIGH PRESSURE SEAT**

**OVER BALANCED MECHANISM**

**DUST CAP PROTECTION**

2<sup>nd</sup> stage

**AIR CHANNEL DEFLECTOR**  
BI-material component directs air evenly through the 2<sup>nd</sup> stage and lowers exhalation effort.

**COVER OPENING CHANNELS**  
Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.

**COMFOBITE**

**INTERCHANGEABLE MOUTH PIECE**

**NEW**

## AQUALUNG LEG3ND ELITE

The LEG3ND ELITE gives divers unprecedented capabilities by providing perfect precision and enhanced ergonomics at your fingertips. Advanced divers appreciate the independent micro adjustments to fine-tune their own individual breathing preferences.

Inhalation adjustment knob: Allows the diver to precisely adjust the opening effort sensitivity.

- At "MIN" position the assistance of the valve is minimized, resulting in lower opening effort sensitivity.
- At "MAX" position the assistance of the valve is maximized, resulting in higher opening effort sensitivity.

Overmolded with "soft touch" elastomer, the ergonomically designed switch perfectly controls the venturi effect, either allowing or containing a natural freeflow.

## AQUALUNG LEG3ND MBS

The first inhalation under water is the start of a new adventure. The revolutionary combination of venturi effect and inhalation effort adjustment is natural and intuitive. Aqualung's Master Breathing System allows divers to control both in one simple rotation. All depths, all conditions, all dives - MBS will adapt.

The Master Breathing System is a new way to adjust the comfort on a second stage. The diver can perfectly master breathing comfort in one simple rotation. The MBS is a unique combined adjustment, it controls the inhalation effort and the venturi effect automatically.

With the MBS on minimum position (only one full rotation): The spring is fully compressed and the inhalation effort is about 3 mbar higher. A free flow is contained when the venturi blade restricts the injection outlet.

With the MBS on maximum position : The injection of the airstream is unrestricted and the flow is maximized.

## AQUALUNG LEG3ND

When performance is your highest priority, LEG3ND is the answer. The LEG3ND shares the same breathing characteristics with the LEG3ND ELITE and LEG3ND MBS. The familiar venturi switch now features an updated and ergonomic design. Because your sensations and emotions are amplified in the underwater world, you can focus on what matters: feeling free.

Overmolded with "soft touch" elastomer, the ergonomically designed switch perfectly controls the venturi effect, either allowing or containing a natural freeflow

## AQUALUNG LEG3ND OCTOPUS

The LEG3ND Octo is the perfect compliment to the Legend regulator family. The high-visibility yellow color makes it easy to find when it's needed most, while the pneumatically-balanced second stage results in smooth, easy breathing. A venturi switch helps prevent free-flow at the surface. The opening effort is pre-set in a fixed position so the diver doesn't have to worry about adjusting the regulator during the dive. Excellent cold-water performance due to highly efficient heat exchanger surrounding the valve.

## AQUALUNG HELIX COMPACT PRO

You don't need to be big to make a big impact. That thinking inspired the Helix Compact Pro, the smallest and most compact regulator Aqualung has ever produced. This amazing piece of technology is equally designed for both warm and cold water, meaning it's perfect for jetsetters on the go, minimalists packing light, and even local divers who simply want unequalled performance per ounce.

### Technical Features

- **AUTO CLOSURE DEVICE (ACD)** prevents water and debris from reaching 1st stage parts or lubrication, maintaining oxygen compatibility and extending life between services.
- **PERMANENT DRY CHAMBER** protects internal parts from water or contaminant damage, providing extreme durability.
- **PERFORMANCE HIGH PRESSURE SEAT**
- **DUST CAP PROTECTION**
- **COMFOBITE** Patented Aqualung exclusive mouthpiece featuring a palate bridge to reduce jaw fatigue and keep the 2nd stage secure mouthpiece reduces jaw fatigue. Secures the 2nd stage more comfortably.
- **COVER OPENING CHANNELS** Wider opening allows water to pass sideways over the diaphragm, preventing freeflow in strong currents and reducing cracking effort.
- **INTERCHANGEABLE MOUTH PIECE**

| REF      | DESIGNATION                               | RETAIL |

## AQUALUNG HELIX COMPACT

Something so small and light, you'd hardly notice it's there that was the goal that led to the new Helix Compact. This regulator is designed for anyone looking to save space while maintaining the advantages of a full-sized regulator.

### Technical Features

#### First stage

- **Travel-Ready:** the reduced size and weight makes the Helix Compact the ideal choice for travelers
- **Yoke or DIN:** available in yoke (3,300psi/232 bar max.) or DIN (4,350psi/300 bar max.)
- **HP/MP Ports and "T" Shape:** 2 HP ports (7/16") and 4 MP ports (3/8"), perfectly oriented in a "T" shape for streamlined hose positioning, reduced exhalation effort, and sending bubbles out of your field of view
- **Braided Hose:** A braided hose provides flexibility, comfort and excellent transportability
- **Standard Aqualung Parts:** since it uses standard Aqualung components, your local dive shop can more easily service it

#### Second Stage

- **Pneumatically Balanced:** Pneumatically balanced for smooth, easy breathing
- **Comfo-Bite:** Comfo-Bite mouthpiece is soft yet sturdy and reduces jaw fatigue with its unique palate bridge
- **Optimize Your Opening Effort:** With the "Mini/Maxi" adjustment knob, you can increase the opening effort, ideal for avoiding freeflow at the surface, or lower the inhalation effort, reducing the work of breathing

## AQUALUNG HELIX COMPACT OCTOPUS

The Helix Compact Pro Octopus provides the same great performance as the Helix Compact Pro primary second stage. This small compact and friendly octopus is the one you want to take on your next dive trip.

### Technical Features

- The light and small Helix Compact Pro is Pneumatically-balanced resulting in smooth and easy breathing
- **Heat exchanger (patented)** which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- The in line venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- Includes 1m yellow hose and yellow front cover making it easy to locate in an emergency

**NEW**  
2024

## AQUALUNG HELIX PRO

This mid-range regulator is balanced on first and second stages, it is our core range. It represents the DNA of the Aqualung regulators. It is certainly the best value for the next coming years. It benefits from the patented ACD technology. The first stage is fully protected even when the regulator is not under pressure. The Aqualung Helix Pro can be serviced every 2 years.

### Technical Features

- Balanced diaphragm 1st stage provides superior, consistent performance
- "T" shape body for streamlined hose positioning
- Integrated dry chamber keeps inner components clean and dry by isolating them from the outside environment
- Heat exchangers on second stage help to prevent ice forming on the mechanism
- In-line ergonomic Venturi knob allows for make precise adjustments, even while wearing gloves

## AQUALUNG HELIX

This mid-range regulator is balanced on first and second stages, it is our core range. When comparing performance with price, Helix is a must have. It represents the DNA of the Aqualung regulators The Aqualung Helix can be reviewed every 2 years.

### Technical Features

- Balanced diaphragm 1st stage provides superior, consistent performance
- "T" shape body for streamlined hose positioning
- In-line ergonomic Venturi knob lets make precise adjustments, even while wearing gloves

| REF      | DESIGNATION                                   | RETAIL |

## AQUALUNG HELIX OCTOPUS

The Helix Pro octopus provides the same great performance as the Helix Pro primary second stage.

### Technical Features

- The Helix octopus is pneumatically-balanced resulting in smooth and easy breathing
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- Includes 1m yellow hose and yellow front cover making it easy to locate in an emergency

## AQUALUNG TITAN

Incorporating all the best features of its predecessors, this third generation Titan has new innovative features resulting in a more comfortable, lighter-weight and easier-breathing regulator. From the consumer that wants performance at an affordable price to the dive center that wants a rugged and easy to maintain regulator, the Titan delivers.

### Technical Features

#### First Stage:

- Uses a balanced-diaphragm mechanism resulting in ease-of-breathing and consistent performance while environmentally protecting the internal parts
- The first stage is T-shaped as opposed to its in-line predecessor making it more compact and providing optimal hose routings
- Features 2 HP ports and 4 MP ports
- The unique, forged body of the first stage uses less brass making it more compact and lighter weight
- The outer skin provides impact protection as well as a cosmetic flair
- Now uses a conical filter for better filtration
- Accepts an optional ACD (auto-closure device) system
- Improved yoke screw eliminates trapped water
- Compatible with EAN 40 new, out of the box

#### Second Stage:

- New, mid-size, high performance demand valve second stage
- Easy-to-grip venturi knob stops unwanted freeflow when the regulator is out of your mouth
- Can easily be reversed from right-handed to left-handed configuration by an authorized Aqualung dealer without additional parts
- Comes with Aqualung's Comfo-bite™ mouthpiece which reduces jaw fatigue
- A grid built into the exhaust tee creates finer exhaust bubbles for less noise and more stability
- All new, easy purge front cover
- A new, reinforced polycarbonate material makes this second stage stronger than its predecessor
- The side openings on the front cover prevent freeflow when facing into currents or riding a scooter

## AQUALUNG CALYPSO

The **Calypso** is always emulated but never equaled. It is compact, lightweight, easy to clean, pack, and maintain. It is durable and dependable in even the most demanding conditions, the perfect tool for dive centers.

### Technical Features

- The large-diameter piston gives you more stable pressure out.
- Designed with large holes in end caps for easy cleaning and better thermal exchange and improved resistance to freezing.
- Includes a 2nd filter, which can be changed without dismantling and provides increased protection from polluted air.
- In-line ergonomic Venturi knob allows for precise adjustments, even while wearing gloves.

# Auto Closure Device System

**Picture A:**  
Din regulator disconnected  
> regulator **closed**

**Picture B:**  
Din regulator connected  
> **open** regulator

**Picture C:**  
Yoke regulator disconnected  
> regulator **closed**

**Picture D:**  
Yoke regulator connected > **open** regulator

When the first stage is not connected to a cylinder valve, the Auto Closure Device (ACD) keeps the inlet shut to protect the first stage internal parts from contamination and corrosive water.

- Preserves the internal lubrication.
- Keeps the inlet filter clean and dry.
- Safer for elevated percentages of oxygen.

# High-pressure seat : 20 years of reliability

The high-pressure seat is the "heart" of a regulator. With every breath a diver takes, the high-pressure valve opens and closes again. The seat must create the perfect seal every time, providing consistent accuracy of the medium working pressure. It is crucial to select the perfect blend of materials in order to achieve reliability over the years of regulator usage.

Thanks to proprietary materials and a specific overmolding adhesion process, Aqualung's unique, patented seat design has proven to be a benchmark regardless of the often extreme conditions their regulators are used in. Each balanced high pressure seat is 300 bar compatible and was individually inspected multiple times at Aqualung's facility in Carros, France, to guarantee the highest manufacturing quality levels.

For the past 20 years, this valve has been installed into over one million regulators and it has proven to be exceptionally reliable.

# Comfo Bite mouthpiece

Patented Comfo Bite™ mouthpiece reduces jaw fatigue and secures the second stage more comfortably

## PSI MAUI

SIMPLE, DURABLE, ECONOMICAL. It's the perfect go-anywhere regulator for warm water both new divers and recreational divers who like to keep their diving simple and fun.

### PSI Maui First Stage

- Classic downstream piston
- Chrome plated brass body
- Low pressure ports: 4
- High pressure ports: 1
- Available in 3364psi/232bar INT configuration.
- Air flow administered at 2100 l/min
- Weight: INT 230 – 24.9oz/706g; /DIN 300 – 17.1oz/485g.

### PSI Maui Second Stage

- Classic downstream valve
- Hypoallergenic silicone mouthpiece
- Left/right hose attachment
- Weight: 165g / 5.8oz
- Air flow at 200 bar: 1400 l/min
- Maximum low pressure: 14 bar / 203 PSI

| REF      | DESIGNATION    | RETAIL |
|----------|----------------|--------|
| RGP12500 | PSI Maui, Yoke |        |

## PSI MAUI OCTOPUS

The PSI Maui Octopus is easy to use and easy to see in virtually all water conditions. A great simple, robust and economic octopus for warm water.

### Technical Features

- Classic downstream valve
- Hypoallergenic silicone mouthpiece
- Right/Left hose attachment
- Weight: 165g / 5.8oz
- Air flow at 200 bar: 1400 l/min
- Maximum low pressure: 14 bar / 203 PSI

## TECLINE R2 / TEC1

### Tecline R2/TEC1 Regulator

Four medium-pressure ports all mounted on a rotating turret. This results in optimal hose routing while eliminating sharp bends in the hose.

An optional 5th port is available for side mount or twin-cylinder set ups.

Can be converted from a right-handed hose configuration to a left-handed one. The process of changing the regulator to a left-handed configuration is both quick and simple. However this procedure must ONLY be performed by an TECLINE Authorized Service Technician.

Available in DIN configuration.

Braided flexi-hoses are now standard on all models. These hoses are lighter-weight, more flexible, and more durable.

#### First Stage:

- Turret style first stage
- Unique over-balanced, diaphragm design – as the diver descends, the over-balancing feature allows the medium-pressure gas in the hose to increase at a rate faster than ambient. This results in superior performance at depth.
- 2 HP ports and 4 MP ports on a rotating turret are angled for optimum hose routing
- An environmental dry system keeps water out of the main spring chamber thus preventing ice buildup and keeping silt and contamination out.

#### Second Stage

- The pneumatically balanced second stage results in smooth, easy breathing.
- The large venturi lever has a soft-touch rubber grip, which makes it easier to locate and use. The lever reduces the amount of grit ingress and therefore resists any possible friction giving a smooth operation.
- Easy-to-grip opening effort control knob keeps the diver in control.
- A silicone exhaust valve improves the breathing performance of the regulator.
- The Comfort mouthpiece virtually eliminates jaw fatigue.
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water.

## TECLINE R5 / TEC1

### Tecline R5/TEC1 Regulator

Tecline R5 TEC1 with TEC1 octopus and bag for the recreational diving with a single cylinder in cold and warm waters. Lightweight, classic and universal, reliable and easy to service. Breathing parameters in accordance with EN250A.

#### Second stage TEC1:

- Lightweight, universal second degree.
- Classic design – reliable and easy to service.
- Breathing parameters in accordance with EN250A – confirmation of the highest quality and safe use even in the coldest waters.

#### TEC1 specification:

- Pneumatically balanced.
- Venturi effect control lever.
- Breathing resistance regulation.
- Aluminum outer ring.
- Additional heat exchanger for cold water.
- Weight: 250g
- Ergonomic mouthpiece.

#### First stage R5:

- Advanced automat for demanding divers.
- Optimized port arrangement.
- Light breathing even in the most difficult conditions.
- Extraordinary breathing parameters exceeding the requirements of the latest EN250A standard for cold water vending machines.

#### R5 specification:

- Balanced membrane system.
- Dry chamber.
- Extra cold kit for cold water.
- Ports: 4x LP, 2x HP.
- Output of LP and HP ports facilitating configuration of double-cylinder sets.
- Max working pressure: 300 bar.
- Max flow rate at 20 mpa pressure: 3823 l / min.
- Pres. interstage: 9.0 bar.
- Material: sea bronze.
- Weight: 822 g.
- Works in configurations:
  - A single cylinder – very good.
  - Twinset – very good.
  - Sidemount – not recommended.

# TECLINE SIDEMOUNT REGULATOR R2/TEC1

## TECLINE SIDEMOUNT REGULATOR SET R2/TEC1

Tecline sidemount regulator set

Discover Freedom with Tecline Sidemount Regulator Set

Unleash the power of versatility and performance with the Tecline Sidemount Regulator Set. Designed for the modern diver seeking ultimate flexibility and control, this innovative system revolutionizes sidemount diving, offering unmatched comfort, reliability, and precision.

### Superior Performance, Unmatched Versatility

Crafted with precision engineering and advanced technology, the Tecline Sidemount Regulator Set delivers unparalleled performance in any diving environment. Whether you're exploring submerged caves, navigating intricate wrecks, or cruising along vibrant coral reefs, this regulator set ensures effortless breathing and optimal gas delivery, allowing you to dive with confidence and precision.

### Customized Comfort for Extended Dives

Experience unparalleled comfort during long dives with the Tecline Sidemount Regulator Set. Featuring ergonomic design and adjustable components, including swivel hose connections and comfortable mouthpieces, this set ensures a personalized fit and minimizes jaw fatigue, allowing you to dive comfortably for hours on end.

### Innovative Design for Seamless Integration

Engineered for seamless integration with sidemount diving configurations, the Tecline Sidemount Regulator Set offers effortless setup and streamlined operation. With compact and lightweight first and second stages, along with flexible hose routing options, this set maximizes mobility and minimizes drag, allowing you to maneuver effortlessly through underwater obstacles and tight spaces.

### Built to Last, Engineered for Reliability

Constructed from high-quality materials and subjected to rigorous testing, the Tecline Sidemount Regulator Set is built to withstand the rigors of the underwater world. From corrosion-resistant components to precision-machined internals, every aspect of this regulator set is designed for durability and reliability, ensuring years of trouble-free diving adventures.

### Dive Deeper, Explore Further with Tecline

Elevate your sidemount diving experience to new heights with the Tecline Sidemount Regulator Set. Whether you're an experienced technical diver or a novice enthusiast, this innovative system empowers you to dive deeper, explore further, and discover the wonders of the underwater world with unmatched freedom and confidence.

### Experience the Tecline Difference Today

Join the ranks of elite divers who trust Tecline for their diving needs. Experience the Tecline Sidemount Regulator Set and unlock a new level of performance, comfort, and reliability in sidemount diving.

### The TECLINE Sidemount regulator set consists of:

- 1 stage R2 TEC x 2
- 1 stage TEC1 x 2
- SPG 52mm x 2
- Hoses:
  - LP 1,93m Proflex black
  - LP 0,65m Proflex black
  - 2x HP 0,20m
  - Bolt-snap 88mm
- Tecline bag
- The Tecline Sidemount Regulator Set is CE approved EN250A sidemount kit specifically for this type of diving.

# ROGUE

You're an accomplished diver who knows exactly what you want. The Rogue BCD is the perfect blend of personalization and minimalist design: all the features you need, none of the fluff you don't. Unique ModLock connector system makes possible 27 different configurations for your most comfortable fit. Overall weight of just 2.5kg/5.5lbs.

- Pockets, stainless D-rings, Octo holder, knife attachment point
- Webbed daisy chain, often found on military gear, provides multiple attachment points for your accessories
- Back inflation BCD with 15L/35lbs lift capacity
- GripLock™ tank band – patent pending finger-saver feature and macro presets create an easy and safe solution for securing and detaching a cylinder to a BC
- A new 3 position bladder retraction system pulls in the sides of the bladder during deflation keeping the unit streamlined and reducing drag
- Chest strap for personalized comfort
- Features 4 Stainless Steel D-rings for streamlined accessory attachment
- Upper and lower right pull dump. Upper pull dump is connected using the TwistLock Technology
- SureLock II™ Weight System (patented) - allows you to easily insert the weight pouch and an audible “click” lets you know the weights are secure in the BC. Once engaged, the weights can be released with a firm pull of the handle
- Optional
  - o Trim pockets (1.5kg/3lbs)
  - o SMB pocket
  - o Waistband Extender

# AQUALUNG OMNI

Created for anyone who wants to fully customize their dive gear, the Omni is a revolutionary jacket-style BCD designed to fit your specific style and size. Bringing ModLock™ technology popularized by our Rogue & Outlaw BCD's connector system, the Omni allows you to choose from 3 universal sizing components: for your back, your shoulders and your waist, allowing for dozens of size combinations. Continue your customization by choosing from multiple accessory options and 6 color kits. This is the ideal platform to create your perfect fit and you've got an infinity of possible configurations!

### Technical Features

- Modlock™ connectors allow for interchangeable back, shoulders and waist strap components to create dozens of possible sizes and configurations.
- Modlock™ connectors easily click into place and are simply unlocked with a small tool such as a key or pen.
- Color kits available in 6 options with the following components: back pad, reusable mesh bag, Surelock™ II weight pockets, octo pocket, console holder, inflator hold down, zipper pulls, and chest strap slider.
- Customizable jacket style BCD with the most desired features: zippered pockets, stainless steel D-rings, octo holder & knife attachment point.
- GripLock™ tank band – patent pending finger-saver feature and macro presets create an easy and safe solution for securing and detaching a cylinder to the BCD.
- Patented SureLock II™ Weight System - allows you to easily insert the weight pouch and an audible "click" lets you know the weights are secure in the BCD. Once engaged, the weights can be released with a firm pull of the handle.
- A new 3-position bladder retraction system pulls in the sides of the bladder during deflation keeping the unit streamlined and reducing drag.
- Adjustable chest strap for personalized comfort.
- Features 4 Stainless Steel D-rings for streamlined accessory attachment.
- Both upper and lower right pull dump valves.

### Optional

- o Trim pockets (1.5kg/3lbs)
- o SMB pocket
- o Waistband Extender

## AQUALUNG PRO HD MAN

The Pro HD is a wrap-around jacket with weight integration that is sure to appeal to a wide range of divers. It provides excellent value because it is so feature-rich for the price. Wherever you want to take it, it's ready to go.

### Technical Features

- **PATENTED SURELOCK II WEIGHT SYSTEM** : Single-pull weight release with patented SureLock II Mechanical Weight Release System.
- **Configurable** : Some divers may prefer to run their instruments behind the left pocket and out the scooped opening on top, in front of the lobe.
- **Gear Up!** Multiple pockets, D-rings, and knife attachment points make stowing and accessing gear easy.

## AQUALUNG PRO HD WOMAN

Strong. Sleek. Secure. The Pearl is a wrap-around, jacket-style BCD designed to fit the female diver. With its adjustable waistband and specially curved shoulder straps, you can customize it for a perfect fit. Plus, its lower profile lobes and shorter torso length help it rest comfortably on the hips.

### Technical Features

- **HYBRID JACKET ADV-STYLE** jacket combined with back inflation unit gives you the best of both worlds: a streamlined profile during your dive and the ability to float comfortably at the surface.
- **PATENTED SURELOCK II WEIGHT SYSTEM** Single-pull weight release with patented SureLock II Mechanical Weight Release System
- **OCTO POCKETS** Two octo-pockets locations for versatility: right lobe and top of front lobe.
- **Gear Up!** Multiple pockets, D-rings, and knife attachment points make stowing and accessing gear easy.

## AQUALUNG PRO HD COMPACT

**NEW**  
2024

Tired of paying excess baggage fees? This ultra-light, weight-integrated, back-inflation BCD is everything you need without extra weight or bulk. Lift it and feel for yourself that even a ML/LG weighs less than 4.75lb/2.2kg with airway and weight pockets included! Can be packed flat or rolled. The perfect BCD for travel.

### Technical Features

- Innovative tank support system eliminates the need for a hard pack.
- A valve strap pulls the top of the cylinder in towards the center of gravity, transferring the load to the hips and relieving the shoulders.
- **PATENTED SURELOCK II WEIGHT SYSTEM**  
Single-pull weight release with patented SureLock II Mechanical Weight Release System.
- Great packability – flat or rolled.

## AQUALUNG AXIOM – MEN'S

NEW  
2024

Aqualung Axiom – Men's Dive BCD: If you want the perfect comfort, fit, and performance for your dive, then you want the Axiom. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. This BCD provides the ultimate in diving luxury along with unmatched buoyancy support for easy trim and no rolling underwater.

- **Wrapture Harness System:** patented swivel shoulder buckles and ultra-thin back plate provide unsurpassed comfort and prevent the BCD from riding up on the surface. Out of the water, the system allows you to stand up straight by keeping the cylinder close to your center of gravity and transferring the weight to your hips
- **GripLock Tank Band:** GripLock tank band's finger-saver feature and macro presets create an easy and safe solution for securing and detaching your cylinder
- **SureLock II Weight Release:** Safe, single-pull weight release with patented SureLock II Mechanical Weight Release System
- Additional Dump Option Right shoulder pull
- **Oral Inflator:** Easy-to-use pull-down oral inflator
- Bladder retraction system pulls in the sides of the bladder during deflation to keep you streamlined and reduce drag
- Smooth, Flat Valves Proprietary flat valves further reduce drag
- **Optional Instrument Configuration:** Some divers may find it useful to run their instruments behind the left pocket and out the scooped opening on the top front of the lobe
- Octo Storage Scooped octo pocket
- Gear Up! Multiple pockets, D-rings, and knife attachment points make stowing and accessing gear easy
- **Rolled Neck Collar:** Comfortable rolled neck collar

## AQUALUNG AXIOM – WOMEN'S

NEW  
2024

The ideal blend of design and technology—that's the Axiom Women's BCD. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. Experience less drag and more stability to make underwater movements seamless. The women's cut also features shorter sides for shorter torsos and a scalloped bottom so the BCD doesn't rub on your hips.

- **Hybrid Jacket:** ADV-style jacket combined with back inflation unit gives you the best of both worlds: a streamlined profile during your dive and the ability to float comfortably at the surface
- **Wrapture Harness System:** Patented swivel shoulder buckles and ultra-thin back plate provide unsurpassed comfort and prevent the BCD from riding up on the surface. Out of the water, the system allows you to stand up straight by keeping the cylinder close to your center of gravity and transferring the weight to your hips

## AQUALUNG DIMENSION

The Dimension is a back inflation style BC that incorporates Aqualung's integrated Wrapture™ Harness System, providing amazing comfort and stability. The Dimension is made from durable, fade-resistant ResisteK™ material and features the patented SureLock™ II mechanical integrated weight system.

- HP hose routings through the back keep your entire kit low profile thus minimizing drag.
- The low profile flat valves reduce drag when moving through the water.
- A bladder retraction system is used to pull in the sides of the bladder during deflation. This keeps unit streamlined and reduces drag.
- Adjustable chest strap for personal comfort.
- A clever octo-pocket on the right lobe secures the octopus while keeping it accessible and visible throughout the dive.
- Two large, easy-to-access utility pockets are found on either side of the Dimension.
- Easy-to-access knife attachment points on the left lobe accommodate many of the Aqualung knives.
- Features 4 stainless steel D-rings and 4 plastic D-rings (1 is located inside the left pocket) for all of your accessories.
- The Right shoulder pull dump provides an additional dumping option.
- Rolled neoprene neck collar for comfort.
- Non-ditchable weight pockets on the back of the BC help the diver achieve proper positioning in the water.
- All sizes are capable of holding up to 30 lbs / 13.5 kg of lead weight.
- Optional accessories include the Airsource, Squeeze lock knife and reflector kit.

## AQUALUNG LOTUS

The Lotus is a back inflation style BC designed specifically for women and incorporates Aqualung's integrated Wrapture™ Harness System. With the Lotus, the Wrapture™ Harness System hugs the contours of the female body with specially curved shoulder straps and side lobes that provide better fit. Integrated weights are held securely in place with the SureLock™ II™ mechanical weight system.

- HP hose routings through the back keep your entire kit low profile thus minimizing drag.
- The low profile flat valves reduce drag when moving through the water.
- A bladder retraction system is used to pull in the sides of the bladder during deflation. This keeps unit streamlined and reduces drag.
- Adjustable, removable chest strap for personal comfort.
- A clever octo-pocket on the right lobe secures the octopus while keeping it accessible and visible throughout the dive.
- Two large, easy-to-access utility pockets are found on either side of the Lotus.
- Easy-to-access knife attachment points on the left lobe accommodate many of the Aqualung knives.
- Features 4 stainless steel D-rings and 4 plastic D-rings (1 is located inside the left pocket) for all of your accessories.
- Right shoulder pull dump provides an additional dumping option.
- Rolled neoprene neck collar for comfort.
- Non-ditchable weight pockets on the back of the BC help the diver achieve proper positioning in the water.
- All sizes are capable of holding up to 30 lbs / 13.5 kg of lead weight.
- Optional accessories include the Airsource, Squeeze lock knife and reflector kit.

## MEASUREMENT INSTRUCTIONS

Waist size in men is normally measured by placing the measuring tape around the waist, cresting the pelvic bone. This measurement is not accurate for BC fitting. The waist size in men should be measured at the height of the belly button just above the pelvic bone (Figure 1). Women's waist size is always measured just above the pelvic bone (Figure 1). This same measurement applies for BC fitting.

Over The Shoulder (OTS) measurement is taken by placing the measuring tape across either the right or left shoulder and reading the distance between the top of the waist line on the back to the top of the waist line in the front (Figure 2). Again, for this measurement in men the waistline is taken to be at the height of the belly button. When fitting the customer in his/her respective waist size and OTS range, inquire what thickness of wetsuit the BC is most likely to be worn with. Calculate about a 2" allowance for the waist measurements for thick, cold water suits.

FIGURE 1: Measuring points for waist size.

FIGURE 2: Measuring points for OTS length.

Men are measured at waistline, rather than normal beltline

## AXIOM i3+ MEN

**NEW**  
2024

Power. Performance. Peace of mind. That's the Axiom i3+ Men's BCD. The incorporated exclusive i3+ inflation/deflation system means perfecting your buoyancy has never been so easy. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. Focus on the important part of diving—enjoying it—with the Axiom i3+.

### Technical Features

#### WRAPTURE HARNESS™

An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

#### SURELOCK II

Snap in the integrated SureLock II Weight Release System pockets with an audible "click" and quickly remove them with one smooth pull.

#### i3+

Exclusive to Aqualung, divers can adjust buoyancy with a simple side lever. Pulling up inflates in small or large bursts, and pushing down opens all the exhaust valves to vent without adjusting body position.

#### SWEVELING BUCKLES

As you adjust the webbing, the buckle turns automatically to follow the fit of your torso.

## AXIOM i3+ WOMEN

**NEW**  
2024

Simply the best women's BCD out there. The Axiom i3+ for women offers our exclusive i3+ inflation/deflation system for easy buoyancy control. Our innovative jacket-style BCD has an inner Wrapture harness that holds you tight and keeps you upright by distributing tank weight. The BCD is shaped shortened, scalloped sides to take pressure off the hips and for those with shorter torsos. Experience the ultimate BCD for women's diving.

### Technical Features

#### WRAPTURE HARNESS™

An ultra-thin inner harness that fixes the BCD snug to the body to prevent riding up in the water while also distributing weight evenly by holding the tank closer to your center of gravity so you can stand and walk upright with ease.

#### SURELOCK II

# AQUALUNG WAVE

When you think of the Wave BC, you think of an entry-level model that is rugged and fade resistant. With this latest Wave however, you get so much more. You now get a stylish BC that has the clever ability to add weight integration! Dive in its standard form using a weight belt and then upgrade to weight pockets, featuring our SureLock™ II weight system, whenever you're ready. It's versatile, it's rugged, it's sharp, it's a Wave.

- Made from tough, fade-resistant 1000D Armorshield™ Cordura®
- Accepts an optional SureLock II weight system (available separately)
- Comes in six sizes! XXS – XL
- A scooped octo-pocket on the top front of the right lobe makes it easy to deploy and stow an octopus.
- Ability to run instrument console behind the left lobe and out the scooped instrument opening on the top front of the lobe
- Features two stainless steel flat D-rings
- Two large utility pockets are easily accessible and large enough to hold all of your accessories.
- Right shoulder pull dump with hi-viz orange pull bob
- Right, lower rear dump with hi-viz orange pull bob
- The waistband is adjustable and removable
- Includes a chest strap

**SIZE XXS ALSO FEATURES:**

- A detachable double, adjusting crotch strap made with neoprene center for extra comfort
- An Optional tank band for 30 cu. ft. cylinder (Part number: 427056)

Due the popularity of this BC in rental fleets, **the inflator hose is not included.**

The figures in this guide are approximate, just to give an idea, not absolute

MEASURING POINTS FOR WAIST SIZE

Men are measured at waistline, rather than normal beltline

MEASURING POINTS FOR OTS LENGTH

## Modlock™ System

Aqualung's patent pending Modlock™ System is the future of custom BCDs. The revolutionary Modlock™ technology allows divers to fully customize their BCD for their specific size and needs, with an infinite number of possible configurations. No longer will you need to decide between that Medium or Large BCD. This system allows you to choose the size of each component individually, so you can go with a Large Back, Medium Shoulders, and a Small Waist to find that perfect fit. The Modlock™ connectors easily click into place and are simply unlocked with a small tool. In addition to size, you can also customize with different add-ons and colors to add your own unique style.

## Wrapture™ Harness System

The valve retention strap pulls the cylinder on the upper part

The cylinder is in perfectly vertical position

A specialized thin Backplate which keeps the cylinder close to the diver's gravity

There are several key elements that make up the Wrapture™ Harness System:

- A specialized Backplate
- Tank band (location)
- Valve retention strap
- LDPE plastic support (low density polyethylene)
- Swivel shoulder buckles (patented)

The Wrapture™ Harness System provides comfort and stability. It allows a diver, wearing a cylinder, to stand up straight when out of the water.

The Backplate is very thin to keep the cylinder close to the center of gravity of the diver. It lowers the tank band and places it next to the waistband to keep primary weight on the hips as opposed to the shoulders and it laterally stabilizes the cylinder to keep it from swinging. The Valve Retention Strap pulls top of cylinder in close which shifts the weight downwards while taking stress off the shoulders. Thus the cylinder remains perfectly vertical. Note: Do not tighten all the way, just enough to keep cylinder vertical. A sheet of LDPE (low density polyethylene) plastic wraps around the diver's body for comfort and stability. It works in conjunction with the shoulder swivel buckles (patented) and supports the weight pockets. Keeping the back pad pulled in against the back it prevents ride-up. The swivels shoulder buckles allow shoulder strap to swivel backwards so that it can run under the diver's arm. The strap remains flat against the body and prevents ride-up of the BC.

## i3 Technology

**i3 SYSTEM**

Easy leveling on the hips

All BCs with i3 technology do have an oral inflator in addition

### i3: Innovative - Intelligent - Intuitive

- The i3 technology is a single touch control for both inflation and deflation.
- Tactile lever is easy to locate because the i3 never moves like a traditional inflator at the end of a floppy hose.
- Intuitive control – lift up to inflate, push down to deflate.
- When the levered is moving down, it opens all of the flat e-valves at once.

### Oral inflator

The inflator is easy to locate and deploy and can be stowed out of the way. The rubber lip block allows easy inflation even in the coldest waters. Just push against lips to open the valve. Can be removed to access rinsing port or to add an Powerline Inflator (if desired).

## TECLINE PEANUT 16 TRAVEL SET COMFORT

To date, the wing under one cylinder TecLine "Peanut 16" – is the first and only asymmetrical wing in the world. TecLine Peanut 16 Asymmetric Wing (16L capacity) helps to achieve a more stable, comfortable position

**TecLine Peanut asymmetric is a series of bags with unique features:**

- Extremely large capacity of 16 l at a very small outer contour.
- Very low weight of 890g.
- Lift capacity: 16kg/35lbs
- Outer layer is made of extremely soft Cordura 1000D.
- Inner bladder made of PU210.
- The asymmetric shape of the outlet for the inflator ensures easy dumping of gases.
- 3D construction enhances safety by the high position of the diver on the surface.
- The shape of the wing guarantees perfect management of the hoses coming out from the regulators In complete:
- "Peanut 16", Alu BP, backplate soft pad "H", soft back pad with buoy pocket, 2 weight pockets, 2 tank belts.

## TECLINE LIGHT TRAVEL SET DONUT 15 COMFORT

The TecLine wing Bcd comes with a comfort harness, alu Backplate, Trim weight pockets, and a tank belt.

TECLINE DONUT 15 WING

**SPECIFICATION:**

- Built-in adapter for single tank
- Capacity 15L
- Double layer (inner bladder made of PU-240 and outer shell made of durable Cordura)
- Inflator with inflation hose included
- Rear dump valve
- Slots for tank bands
- 5-year warranty

## TECLINE SIDEMOUNT 16 BCD

The TECLINE sidemount BCD Avenger side16 is the cornerstone of the sidemount diving system, offering streamlined comfort and stability in the water. Designed to accommodate multiple tanks along the diver's sides, sidemount BCDs provide optimal buoyancy control and trim, allowing divers to maintain a horizontal position effortlessly while conserving energy and air.

Ideal for cave and recreational diving. CERTIFICATE CE EN1809 CE1463

The TECLINE Sidemount BCD Kit is one of the easiest on the market to configure and adjust the harness. The harness may be separately adjustable shoulder belts and / or belt ventral with easy adjustment that makes the best set of learning. Wing and harness form a single integrated set.

### Tecline Sidemount 16 Avenger Set Features:

- Buoyancy: 16kg
- DIR harness that preserves the purity
- The possibility of adding up to 19 kg of ballast
- 2 sets of additional ballast pockets available in 2 sizes (2 kg and 4.5 kg)
- 4 integrated ballast pockets (10kg total), which distributes the load in an ideal position on the back of the diver. These pockets are positioned slightly outwardly and below to provide a better finish and streamlining
- Pockets ballast abdominal belt will help divers dry suit by placing extra ballast towards the lower part of the body
- Pressure relief valve in a strategic and protected place on the lower back of the bag for easy emptying gas in the horizontal or upside down
- The low profile of the bag reduces the resistance and the risk of being stuck
- Inflator can be placed to the left and right
- Detachable beaver tail for attaching heavier steel cylinders and accessories

## ANALOG GAUGES & COMPASS

### PRESSURE GAUGE

The Aqualung Pressure Gauge delivers both remaining air pressure and temperature in one easy-to-read display.

- Easy-to-read scale up to 5,000 PSI / 350 bar rated
- Luminescent gauge face for easy reading in low light
- Integrated temperature scale
- Nitrox compatible up to 50%
- Shock resistant Bourdon tube
- One way safety valve
- Hose length is 36"

#### Options

- Available in imperial or metric

### DEPTH GAUGE

The Aqualung Depth Gauge, with its specially designed depth scale and luminescent gauge face, allows for easier reading at a glance.

- High fidelity depth scale provides accurate and easier reading at shallow depths
- On the wrist mount version, the strap is designed to fit a variety of wrist sizes and wet/dry suit diameters
- Maximum depth indicator
- Luminescent gauge face for easy reading in low light
- 200 foot / 60 meter maximum depth
- Wrist mount boot allows for future upgrade to the i300 dive computer module

#### Options

- Available in imperial or metric
- Available in wrist mount or drop-in for console

### ANALOG INSTRUMENT CONFIGURATIONS

- 2 gauge console includes Pressure Gauge, Depth Gauge and Writing Slate (provides option to add in a Compass)
- 3 gauge console includes Pressure, Depth and Compass
- Single unit Pressure, Depth or Compass option available

2 Gauge Analog

Wrist Compass

Single Pressure Gauge

# i200C

## Dive Computer

The i200C is an intuitive, sporty dive computer and now with its fresh design, you'll find yourself wearing the i200C as an everyday sports watch that is ready to dive when you are.

The real step forward with the NEW i200C is that it now features **Bluetooth SMART** that can connect with your hand held devices through a FREE app which allows you to make adjustments to the settings and log your dives without touching the buttons on the dive computer !!

- Available in 6 colours
- **DiverLog+ App is available** for FREE from Play Store or App Store – Control all settings on the Dive Computer, Log Dives with Google Map locations, connect with Buddies through Social Media and much more
- **4 operating modes.** Air, Nitrox, Gauge (with run timer), and Free Dive (tracks calculations to allow unrestricted switching between Dive and Free)
- **User-changeable standard battery** and data retention. Uses globally available standard batteries. Maintains settings and calculations between battery changes
- **High visibility LED** alarm light for additional diving safety
- **Switch between up to 2 Nitrox mixes.** Mixes up to 100% O2 with no restriction
- 2 year International Warranty

### OTHER MAIN FEATURES

- Single button access to last dive display (max depth and bottom time)
- Deep Stop with Countdown Timer
- History Mode records last 24 dives
- User-updatable software gives access to the latest features and upgrade (must purchase optional download cable)
- Simple to use with DiverLog software on the Mac or PC platforms, which allows control of all your dive computer settings, view Log and Profile data, add location, notes and other details, as well as store and share photos & videos. DiverLog must be purchased separately at [ediverlog.com](http://ediverlog.com)
- \*DiverLog app must be purchased separately on the App Store, [Google Play](http://Google Play) or [ediverlog.com](http://ediverlog.com)

**AQUALUNG** i330R

The i330R is the ideal choice for advanced divers who love exploring the world and need to rely on their dive computers anywhere they are. Thanks to its bright color screen, readable even in sunlight and its rechargeable battery, it won't let you down. With its 4 modes, 3 nitrox mixes, and Bluetooth connection, this is the best value for money dive computer from our line-up. Even on the other side of the world, stay connected with your friends and share the details of your diving adventures on social media via the Diverlog+ app from your mobile device.

# AQUALUNG i770R

The most tech-savvy diver will appreciate the i770R's Bluetooth capability and cutting-edge high-visibility TFT color screen, as well as its robust functionality and intuitive, compact design.

The i770R combines the best of today's most advanced performance features with an out-of-the-box simple to use interface. Every feature thoughtfully maximizes your focus on the dive experience. With standard features that include a rechargeable battery, 3-axis full-tilt compass, easy three-button navigation, multiple gas capability and 4 operating modes, managing your dive has never been easier.

And, with options for hoseless gas integration via a paired-for-life transmitter and the Diver-Log+ app, you can integrate technology and connectivity to all your dive adventures.

- **Rechargeable lithium battery**
- **High-visibility Thin Film Transistor (TFT) color screen with easy-to-use interface**
  - Color screen. Ultra-bright, high-contrast, full-color TFT display, with easily adjustable intensity for perfect clarity and battery savings when a high-intensity screen is unnecessary
  - Easy-to-use interface. Monitor all your key information with the intuitive menu structure. The i770R's intuitive 3-button navigation interface allows for easy settings preview and updates
- **Bluetooth data transfer to the DiverLog+ app\***
  - Using your smartphone or tablet, the DiverLog+ app (available for iOS and Android) allows you to wirelessly interact with your i770R via the latest Bluetooth Smart technology
  - Remotely control all your i770R settings, view Log and Profile data, add location, notes and other details, as well as store and share photos and videos of your dive
- **Hoseless gas integration.** Our patented Gas Time Remaining Algorithm provides calculations in real time, allowing accurate gas management
  - Compatible with 4 different transmitters and nitrox mixes on a single dive
- **Paired-for-life transmitter.** Once you pair your transmitter to your i770R, it's done—there's no need to ever pair again
- **3-axis full-tilt compass.** Easy-to-read compass graphics, with a compass-bearing lock and reciprocal heading for easy navigation. An alternate compass bar can be displayed on the primary dive screen with the touch of a button.

## OTHER MAIN FEATURES

- Multiple gas capability manages up to 4 Nitrox mixes (with 4 transmitters), each with individual PO2 set points
- Audible alarms and color-changing segments provide cautions and warnings for additional safety
- Automatic altitude adjustment ensures an accurate profile
- Included adjustable bungee wrist mount and NATO band
- Pre-Dive planning feature allows a preview of planned dives to maximize your next adventure safely
- Automatic Safety Stop Countdown displayed in minutes and seconds for clarity
- Battery status indicator for both computer and transmitter
- 4 operating modes: Air, Nitrox, Gauge and Free Dive, so it's up for any adventure
- User-updatable software gives access to the latest features and upgrades
- Optional deep stop with countdown timer
- Salt or fresh water dive selection

\* DiverLog app is available on the App Store, Google Play or [www.ediverlog.com](http://www.ediverlog.com)

## AQUALUNG i100

The i100 is the perfect dive computer for the new divers. With simple one-button navigation, you can select from four operating modes and manage two gases. The computer will also retain all your settings and calculations between battery changes. Safety features such as audible alarms and a high-visibility LED warning light are included. The i100 dive computer provides all the essential functionality you need, a compact design, and a great price.

- **4 operating modes.** Air, Nitrox, Gauge and Free Dive (tracks calculations to allow switching between DIVE and Free)
- **User changeable battery and data retention.** Maintains settings and calculations between battery changes
- **Intuitive one-button navigation**
- **2 Nitrox gases**

### OTHER MAIN FEATURES

- Audible alarms and additional high-visibility LED warning light for increased safety
- User-updatable software gives access to the latest features and upgrades (must purchase optional download cable)
- Pre-Dive planning feature allows a preview of your next dive
- Water activation feature, to give a no-worries start to the dive
- Single button press access to last dive display (max depth and bottom time)
- History Mode includes total number of dives, max depth, total dive hours and lowest temperature
- Nitrox mix to 100% O<sub>2</sub>
- Optional deep stop with countdown timer
- Salt or fresh water dive selection
- Automatic altitude adjustment ensures an accurate profile
- Simple to use with DiverLog software on the Mac, PC or mobile platforms, which allows you to control all dive computer settings, view Log and Profile data, add location, notes and other details, as well as store and share photos and videos. ## AQUALUNG i300C

Bluetooth technology is now added to the popular i300C, making it even simpler to use

- **Bluetooth connectivity.** Now equipped with Bluetooth technology that offers the user a simple and quick wireless exchange of dive log information with the DiverLog app and fast connections with their buddies on social media
- **4 operating modes.** Air, Nitrox, Gauge (with run timer) and Free Dive (tracks calculations to allow switching between DIVE and Free)
- **User-changeable battery and data retention.** Maintains settings and calculations between battery changes
- **3 Gas computer.** Able to switch up to three gases underwater
- **Backlighting.** For easy reading in low light

### OTHER MAIN FEATURES

- Audible alarms and additional high-visibility LED warning light for increased safety
- User-updatable software gives access to the latest features and upgrades
- Pre-Dive planning feature allows a preview of your next dive
- Water activation feature, to give a no-worries start to the dive
- Single button press access to last dive display (max depth and bottom time)
- History Mode includes total number of dives, max depth, total dive hours and lowest temperature
- 3 Nitrox mixes to 100% O<sub>2</sub>
- Optional deep stop with countdown timer
- Salt or fresh water dive selection
- Automatic altitude adjustment ensures an accurate profile
- Simple to use with DiverLog software on the Mac, PC, or mobile platforms, which allows you to control all your dive computer settings, view Log and Profile data, add location, notes and other details, as well as store and share photos and videos. DiverLog must be purchased separately at [www.ediverlog.com](http://www.ediverlog.com)

# PLAZMA

For new and experienced divers, the Plazma is the only frameless panoramic diving mask that delivers a perfect fit with excellent comfort from surgical grade premium silicone and ExoHex stability. The Plazma mask delivers a lightweight and compact, low-profile design in fresh, exciting color combinations and is available with Clear and Advanced Mirror lens options.

## Technical Features

- No strapping design thanks to patented Micromask technology by Aqualung
- Frameless constructions utilizing Aqualung proprietary Micromask Technology
- Pressure reduction zones are incorporated into the silicone skirt at strategic points to help relieve the pressure of the mask on long dives. This engineered design utilizes these reinforced zones to improve also skirt stability at traditional weak points
- Two lens options: Clear and Amber, that reduces glares in shallow water and enhances red colors in deep water
- Quick Fit Buckles. The one-touch button release allows for easy adjustment for the best fit, even while wearing thick gloves
- Advanced Fit Technology (AFT) enhances the sealing features of the silicone skirt, improving fit, comfort and feel
- Preformed mask strap better forms to the diver's head, increasing comfort and provides a more secure fit
- Reusable protective case

## AQUALUNG REVEAL X1

## REVEAL X1

The Reveal's innovative features make this dive mask our most comfortable and best fitting mask. Created after years of research and testing, the Reveal is a premium diving mask that delivers ultra-comfort and a perfect fit thanks to both a super soft, top quality crystal-clear silicone and an ergonomic skirt profile. The new buckles, attached directly to the silicone skirt, feature a single quick-button release system and the mask is equipped with an innovative spherical silicone head band strap—all to help the diver create the perfect leak-free fit. The large operating button is easily activated, even with thick gloves. The Reveal is available in single lens (Reveal X1) or twin lens (Reveal X2) versions.

### Technical Features

- Universal Advanced Silicone Skirt (UASS). After years of research and testing, an innovative wrap-around geometry has been designed for an excellent fit for a wide range of face shapes. A new grade of crystal-clear silicone is used to create a super soft and comfortable fit
- Advanced Fit Technology (AFT) enhances the sealing features of the silicone skirt, improving fit, comfort and feel
- The Spherical Silicone Head Band Strap is an innovative design for the silicone strap, in the shape of a sphere to perfectly and comfortably fit the diver's head and keep the strap securely and comfortably in place
- Quick Fit Buckles. The one-touch button release allows for easy adjustment for the best fit, even while wearing thick gloves. The buckles are attached directly to the silicone skirt in order to provide stability on the face
- HI-VIS technology molds the frame of the Reveal from two bright yellow and orange materials for increased visibility under water
- The single-lens version of the Reveal features an innovative construction system that makes it the lightest single lens mask (non-frameless) on the market

## AQUALUNG LINEA

### Technical Features

The Linea uses the Micromask technology. It's very close to the face, has a very low volume and is extremely lightweight. In addition with a single glass the Linea offers a maximum field of vision.

- Using Micromask technology, the Linea's lens, skirt and frame are molded together in one shot as opposed to other masks where multiple pieces are snapped together. This allows the lens to come close to the face which maximizes the field of vision.
- Low volume means that the mask is easier to clear and reduces the buoyancy
- Advanced Fit Technology (AFT) uses bands of different textures around the edge of the skirt resulting in a superior seal against the face
- The mask skirt goes further back on the face enhancing the comfort and reducing the marks left behind on the face.
- The clever Comfort Buckle System (CBS) prevents the diver's hair from getting tangled in the buckle

## AQUALUNG MICROMASK X

### Aqualung Micromask X – Extra Low Volume

A revolutionary mask design that positions the lenses within your ocular orbit (the natural facial recesses of the eyes). This results in significantly improved peripheral vision and an incredibly low internal volume. Plus, patented Micromask technology reduces frame bulk for a low profile, reducing drag.

#### Technical Features

- Patented Micromask Technology: The use of a single-piece lens, skirt, and frame allows the lenses to be placed close to the face for vastly improved field of view
- Push-Button Strap Security: Counterposed push-button activation makes strap adjustments fast and holds the strap securely in place once set. Easy to use, even while wearing gloves.
- Natural Skirt Fit: High-grade silicone facial skirt flexes to mold naturally along the contours of your face for a comfortable, leak-free seal

## AQUALUNG SPHERA X

For 2020, Aqualung is proud to introduce a total new SPHERA X mask that features a new silicone skirt material and shape geometry, an attractive lightweight frame structure and an easy-to-adjust micro buckle system.

The SPHERA X comes in a heavy-duty zippered EVA Case, not only to protect the Plexisol® lenses but also to reduce PVC plastics waste.

- 180° distortion-free panoramic vision thanks to the exclusive Curved Lens Technology
- Plexisol® lenses with special anti-fog and anti-scratch benefits
- UVA/UVB protection
- Advanced Fit Technology (AFT) enhancing the sealing features of the silicone skirt, improving fit, comfort and feel
- Easy adjustable buckle system
- An innovatively shaped strap better forms to the diver's head, increasing comfort and provides a more secure fit
- Attractive heavy-duty EVA box with corrosion free zipper.

## TECLINE FRAMELESS SUPER VIEW MASK

NEW  
2024

The Tecline Frameless Super View mask is a must-have for divers of all levels. Offering the widest field of view among frameless masks, it conforms comfortably to the face and requires minimal gas to clear water. Its hydrodynamic shape ensures efficient drainage of exhaled air, keeping the diver's view unobstructed.

Designed for technical diving and other underwater applications, this mask features a frameless construction and small volume design. Its durable metal fastening of mask strips ensures a secure fit, while the quick and easy mask strap adjustment feature provides customized comfort for every diver.

### Key features include:

- Exceptional 170-degree view thanks to a short distance between glass and eyes
- Enlarged angle of view downwards
- Low volume
- Metal strap buckles
- Ultra-lightweight
- Soft, black silicone frameless mask
- Perfect adherence to the face

# PSI CORE

The Core is a low volume mask with aluminium frame, perfect for freediving and scuba diving.

### Technical Features

- The aluminium frame offers a nice design and perfect stability of the mask during the dive.
- The skirt is made from high grade extra soft liquid silicone that will provide a very smooth contact to the skin and fantastic seal.
- The extra low volume will help you to clear the mask very easily.
- Made from tempered lenses, HD Lenses for a super clear vision.
- Sold with the PSI mask box Deluxe

## PSI MIRA

- **Advanced Silicone Skirt:** After years of research and testing, an innovative wrap-around geometry has been designed for an excellent fit for a wide range of face shapes.
- **The Spherical Silicone Head Band Strap:** is an innovative design for the silicone strap.
- **Quick-Fit Buckles:** The one-touch button release allows for easy adjustment for the best fit.
- **HI-VIS technology:** molds the frame of the Reveal from two bright yellow and orange materials for increased visibility underwater
- The single-lens version of the Mira masks features an innovative construction system that makes it the lightest single lens mask (non-frameless) on the market
- Sold with the PSI mask Box Deluxe

**PSI** BIG VIZZ

Featuring an over sized single lens, the Big Vizz offers a superior field of vision, whilst maintaining a small internal volume.

- One size fits most face skirt
- Tempered glass lens
- Buckle for comfort and adjustment
- Silicone skirt

| REF       | DESIGNATION  | RETAIL |
|-----------|--|--------|
| MSP1400SV | PSI Big Vizz, 1 window - Black / Silver, Deluxe Mask Box |        |
| MSP1400RD | PSI Big Vizz, 1 window - Black / Red, Deluxe Mask Box    |        |

**PSI** ICON

Style & performance, the PSI Icon mask is the ideal twin-lens mask for skin and scuba divers.

Equipped with clear HD Lens and a hi-grade silicone skirt designed for increased comfort. The Icon mask offers low-volume and optimized inclination angle that improve the field of view.

The skirt's all-in-one design ensures firm but gentle contact with the face. Pulling on the strap keeps a tight yet gentle seal leaving fewer impressions on your skin.

Low Volume – Reduced inner volume of the mask promotes a wider vertical and horizontal field of view.

The release buckle and fine pinch strap adjustability make it easy to find the most comfortable fit even when wearing thicker gloves. Can be adjusted with only using one hand.

## AQUALUNG ZEPHYR FLEX

Zephyr Flex's unique dual-material construction combines rigidity and flexibility for dependability and comfort. The Zephyr Flex is a corrugated snorkel, with an elliptical purge valve and an anti-shock soft splashguard. The unique construction uses two materials, one rigid to prevent collapse and the other soft to allow flexibility which reduces pressure on the diver's mouth. Thanks to the elliptical purge valve, the Zephyr Flex creates a seal against incoming water and makes easy work of purging water away. The anatomically-designed silicone mouthpiece reduces jaw fatigue and the soft splashguard top helps to reduce water entry at the surface in choppy conditions. The ergonomic snorkel retainer is easy to operate, even with thick gloves.

### Technical Features

- At the very heart of the snorkel is our shaped and protected silicone Elliptical Purge Valve: the shape of the valve guarantees sealing as well as ease of purging.
- The anatomically-designed mouthpiece made from medical silicone reduces jaw fatigue.
- The joint between the mouthpiece/valve box and the corrugate is a swiveling sealed connection that rotates for a better fit.
- The corrugate is made from two materials, one rigid and the other flexible. Corrugates from other manufacturers collapse even on shallow dives. Zephyr Flex does not, thanks to the rigid skeleton that keeps it in shape. The flexibility also provides an important fitting benefit: it lets the mouthpiece set softly into the diver's mouth without stress, improving comfort and reducing jaw fatigue.
- The large snorkel retainer is very easy to use even with thick gloves, thanks to an ergonomically-designed structure.
- The D-barrel-shaped tube helps the Zephyr Flex rest more streamlined against the diver's face.
- The splashguard is made from two materials with the same corrugate technology. This rigid, yet flexible construction helps prevent potential injuries in crowded environments such as diving clubs, classes and on boats.

## AQUALUNG ZEPHYR

The Zephyr was designed and manufactured in the Aqualung facilities in Genoa in Italy. The purge eliminates water infiltration and provides easy release by an integrated ripple area making it unique and elegant tuba.

- Splash guard with purge channel on top of snorkel
- Elliptical purge valve for clearing reservoir at the bottom
- Easy, quick-adjust clip for mask attachment
- Integrated corrugation zone for flexibility
- Rotating mouthpiece assembly
- Comfo-bite hypoallergenic mouthpiece

## PSI NAUTILUS

The PSI Prodiver Nautilus Foldable snorkel rolls up and can be carried in a BC pocket or hung from a D-ring. The snorkel deploys in a snap, making it the most travel-friendly snorkel ever.

You know you're supposed to have one, but most scuba divers find a heavy, rigid plastic snorkel to be a drag on diving comfort. Therefore the PSI Prodiver Nautilus Snorkel is the solution.

This product is designed to be carried rolled up in your buoyancy vest pocket and only removed when required.

- Design for BCD pocket
- Easily snaps to its original shape when unrolled
- Food grade silicone made, safe to use.
- Different colors. Easy to match with your diving masks or fins.

# STORM

The Storm fins are great all-around fin ideal for travel. Produced using Monprene®, a single material construction gives both durability and strength while maintaining exceptionally light weight, exactly what the traveling diver requires. The innovative foot pocket design has the advantage of a full foot fin for comfort with the versatility of an open-heel fin for sizing. Available in a wide range of 4 sizes covering from junior to adult.

- Barefoot open heel storm fin, made in a single TPV compound Monprene®
- Ergonomic foot pocket ensures comfort, freedom and prevents fatigue
- Silicone bungee strap equipped with heel pad for easy on-and-off
- Strong compact blade aids in efficient power transfer
- Excellent grip on the underside to reduce slippage on deck
- Access hole in the blade for easy transport and storage
- Simplified size identification by color-coding on the bungee protector and blade insert

**AQUALUNG PHAZER**

**NEW COLOUR**

From beginner to expert, Aqualung's Phazer fins, with its revolutionary composite wave rib technology, provides the perfect balance for divers to produce powerful kicks with easy but energy-maximizing movements.

Designed and produced with a tri-material construction and an advanced canalization system, everything about this fin is engineered to optimize the energy you load and release with every kick.

- **Wave Rib Technology:** The revolutionary side ribs are the heart of the Phazer fins. The elastomeric rubber sections of the ribs work together with the wave-shaped structures, accumulating (loading) the energy of every kick that is released during the kick cycle. The effect is a solid, powerful yet easy kick, suitable for beginners as well as for expert divers.
- **New Bungee Strap:** Equipped with new bungee strap and heel-pad for quick and easy donning and doffing.
- **Tri-Material Construction:** Tri-material construction optimizes every single area of the fin: foot-pocket, blade and side ribs are made with different specific advanced materials to get the best performance.
- **Hydro Power Channel:** Thanks to the engineered channel in front of the foot pocket, the water can flow through the blade, enhancing efficiency, power and stability, making the Phazer a powerful and ideal fin both for professional scuba divers and students.
- **New Canalization System:** The blade features a soft TPR membrane to better canalize water during the primary and recovery portions of the kick cycle.

## AQUALUNG STORM MAX

Aqualung Storm Max Fins are a pair of long fins with a bungee strap that are made for all your dive. Each size has its own colour coding for easier recognition and each fin has a hole in the paddle for storage. Produced using Monprene, a single material construction gives both durability and strength. The innovative open heel foot pocket design Made in Italy

### Technical Features

- Open heel fin, made in a single TPV compound Monprene
- Ergonomic foot pocket ensures comfort and prevents fatigue
- Silicone bungee strap equipped for easy on-and-off
- Strong blade aids in efficient power transfer

## AQUALUNG STRATOS ADJ.

An excellent choice for divers entering the sport, the Stratos ADJ is easy to kick. The dual-material blade is designed to quickly reach the optimal angle needed to move water quickly and efficiently. This highly durable fin is a popular choice for resort rental programs. The dual-material foot pocket offers a Power Transmission Zone to prevent stretching. This provides maximum energy transfer from diver to fin

- Dual-material side ribs and blade help transfer maximum energy from foot pocket to blade tip.
- The Bending Zone between the blade and foot pocket allows the blade to quickly reach the optimal inclination for propulsion and water channeling.
- The dual-material foot pocket's Power Transmission Zone prevents stretching during the power stroke of the kick cycle.
- Quick Release buckles are easy to operate and make exiting the water hassle free.
- Ergonomic straps adjust easily, even while wearing thick gloves.
- Colors: Yellow, Orange, Blue and Black

## AQUALUNG EXPRESS ADJ.

The Express ADJ fin represents the latest in technology and material innovation. Comfort, power and efficiency are the hallmarks of this propulsion machine. Strap a pair on and see for yourself.

The Express fin works on the same principle as the popular Slingshot and Hotshot fins. The function of the Slingshot power bands has been converted into the Express "Armadillo". This patented, elongated membrane is made from ultra-elastic rubber. Like power bands, it accumulates elastic energy during the down stroke and returns it at the end of each kick cycle.

The Armadillo also bridges the gap between the front of the foot pocket and the back of the blade, which eliminates any water transfer through the fin.

- The blade connects halfway back on the foot pocket at the Mid-Foot Flex Joint. This eliminates hyper-extension of the toes and ankles.
- The foot pocket is not only comfortable, but provides different thickness zones which properly secure the foot to the blade for maximum energy transfer.
- Rubber side ribs channel the water down the length of the fin minimizing the spill-over effect.
- Features the ESBS (Ergonomic Strap and Buckle System). The protruding press-to-release buttons can be operated easily even while wearing thick gloves.
- The strap, made of rubber with anti-aging compounds, has three convenient loops. This makes strap easy to tighten or pull up over the heel even with the thickest of gloves
- Over-sized, anti-slip rubber pads on the bottom of the fin

Armadillo

## AQUALUNG WIND

- Travel-size blade and light weight make the fin ideal for any adventure.
- Blade made of two materials of light polypropylene with rubber inserts, offering comfort and durability.
- Comfortable and ergonomic foot pocket designed to accommodate the anatomy of the foot.
- Grip Effect inside the foot pocket to ensure foot stability.
- Tab on the heel for easy don & doff.
- Rigid sole guarantees an optimal protection of the foot and a good power transmission to the blade
- Anti-slip rubber pads.
- Structured side ribs ensure progressive and controlled bending.
- Colors: Blue, Hot lime & Arctic white.
- Hot lime color option made with Hi-Vis Technology for great underwater sighting.

## TECLINE LIGHTJET FINS

If you are looking for a pair of fins that combine recreational lightness and technical functionality, look no further than the Tecline LightJet fins. The Tecline LightJet fins are made of thermoplastic vulcanisate (TPV), a new, flexible material that is also 100% recyclable. They feature an ergonomic open heel with stainless steel springs for comfortable donning, using and doffing. The blade has a hole for easy hanging and storage, and a line of additional holes along the blade for improved water flow and performance.

Try the Tecline Light Jet Fins and discover the ease and comfort of traveling with lightweight fins, weighing only 0.8kg-1.2kg, yet providing high performance.

The Tecline Light Jet fins are available in blue, white and black, and in sizes S/M, L, XL. Whether you are flutter kicking, frog kicking, back kicking or helicopter turning, the Tecline LightJet fins will give you the power and manoeuvrability you need.

### Specifications:

- Material: Thermoplastic Vulcanisate TPV (new, flexible material with optimal properties for recreational fins, produced from recycled materials, 100% recyclable)
- Mounting system: stainless springs
- Ergonomic shape of the boots (open heel)
- Holes for easy hanging (for storage, transport, or drying)
- Weight of one fin with springs: 0.8kg – 1.1kg (depending on the size)
- Available sizes: S / M, L, XL

## AQUALUNG CYCLONE X

The Cyclone X fins are lightweight and reactive thanks to a thermoplastic blade construction. The foot pockets use a soft rubber for efficient power transfer with a lateral rips for progressive blade flex. The Cyclone X Fins add another level of adaptability with the use of a modular system to suit your diving needs.

The modular design is also perfect for traveling, allowing the fins to be disassembled and packed into shorter travel bags and reassembled at the destination. This new tip profile will prevent slipping from side to side while kicking.

- Powerful Thermoplastic blade construction
- Soft rubber foot pockets for efficient power transfer
- Lateral rips for progressive blade flex
- Modular, travel ready system - disassembles and reassembles to perfectly fit in your carry-on luggage
- Tip profile prevents side-to-side slipping while kickin

## PSI MOLA

The PSI mola fins is an entry-level full-foot fin, ideal for light scuba and snorkeling. Even though it is compact and lightweight, the Mola fins is still robust and comfortable.

### Technical Features

- Travel-size blade and light weight make the fin ideal for any adventure.
- Blade made of one material offering comfort and durability.
- Comfortable and ergonomic foot pocket designed to accommodate the anatomy of the foot.
- Grip Effect inside the foot pocket to ensure foot stability.
- Rigid sole guarantees optimal protection of the foot and a good power transmission to the blade
- Anti-slip rubber pads.
- Structured side ribs ensure progressive and controlled bending.
- Colors: Black, Powder Blue, Powder Pink

Sizes available from 36/37 to 44/45

# PSI SPRINTER

- The dual-material foot pocket offers a Power Transmission Zone to prevent stretching. This provides maximum energy transfer from diver to fin
- Equipped with a new spring strap and a heel pad for quick and easy donning and doffing.
- The Bending Zone between the blade and foot pocket allows the blade to quickly reach the optimal inclination for propulsion and water channeling
- Quick-release buckles

## AQUALUNG SUPERZIP 5MM

The Superzip has an extra-thick sole, heavy-duty protective panels on the upper, and a durable zipper to withstand years of use without tearing. This is the boot for an avid diver who needs to be prepared for cold water, rough terrain, less-than-luxurious boats, and murky, low-viz conditions that hide hazards

### Technical Features

- **Ergonomic:** Like the rest of the Aqualung boot line, the Superzip uses our patented, anatomically correct ERGO™ shaped footbed and outsole to match the profile of your foot, preventing excess water retention and offering comfortable support.
- **Protective:** 8mm-thick treaded sole provides premium protection against punctures, stings, and slips. For added protection and durability, the panels on the heel cap, toe, and top of the foot are twice as thick as in the standard boots!
- **Warm:** 5mm neoprene upper for the right amount of warmth in any conditions.
- **Comfortable** The Superzip boot uses just a few seams, which are placed away from the widest parts of the feet to minimize chafing.
- **Durable Closes:** with a heavy-duty, non-corrosive #10 YKK toothed zipper. Elastic binding at the top resists wear and tear.
- **Eco-Conscious Packaging:** Ships with minimal carbon footprint packaging. No plastic bags

## AQUALUNG SUPERLOW BOOT 3MM

This 3mm neoprene, low-top, pull-on boot has a sturdy, supportive 8mm sole while remaining lightweight. It's perfect for adding moderate warmth and significant protection during warm-water shore dives or on areas where splinters, sea urchins and barnacles can pose puncture hazards to your feet. Designed to be worn with open-heel fins.

- **Ergonomic:** Like the rest of the Aqua Lung boot line, the Superlow uses our patented, anatomically correct ERGO™ shaped footbed and outsole to match the profile of your foot, preventing excess water retention and offering comfortable support.
- **Protective:** 8mm-thick treaded sole provides premium protection against punctures, stings, and slips. For added protection and durability, the panels on the heel cap, toe, and top of the foot are twice as thick as standard boots.
- **Warm:** 3mm neoprene upper for the right amount of warmth and protection
- **Comfortable:** The Superlow boot uses just a few seams, which are placed away from the widest parts of the feet to minimize chafing.

## PSI SEABOOT 5MM DIVING BOOTS

Our new diving boots PSI Seaboot 5mm maintains its sturdy but flexible outsole and rubberized protective armor. It still feels very light on the foot. A revised ankle diameter and new contoured top improve fit and make sliding the YKK zipper up and down even easier.

### Technical Features

- Material: 5mm neoprene with nylon jersey fabric
- Customized logo printing
- 83 YKK plastic zipper opening
- Natural rubber extra protection on the instep
- Thick rubber sole, extend to toe for more protection
- On back with stopper

## PSI SEAWALK 3MM DIVING HALF BOOTS

The ideal warm water dive boot, SeaWalk Boots are made from as few seams as possible, strategically placed away from the foot's widest areas to decrease chafing. Fewer seams don't mean less protection, as these boots are designed to prevent excess water retention and come with a treaded sole that keeps your feet from getting punctured or stung in and out of the water.

### Technical Features

- Material: 3mm neoprene with nylon jersey fabric
- Customized logo printing
- Natural rubber extra protection on the instep
- Thick rubber sole, extend to toe for more protection
- On back with stopper

## AQUALUNG NEOPRENE ERGO LOW SOCK 3MM

Even in warm waters, it's a good idea to protect your feet with socks. In addition to adding a layer of warmth, the low-top Ergo Neoprene Sock prevents blisters while wearing open-heel fins. It guards against scrapes and stings when wading in and out of the water during shore dives, and lets you walk at a safe pace on hot surfaces.

- **Best Fit:** There's no baggy, unused material due to the right and left foot-specific designs.
- **Grip Option:** Select the silicone print option at check-out for added control.
- **Warm:** Glued and blind-stitched seams prevent water from entering.
- **Durable:** The elastic-bound cuff keeps seams from fraying after repeated use and plenty of abuse.
- **Travel Friendly:** Small, light, and soft, these socks fit easily into luggage.

## AQUALUNG NEOPRENE ERGO HIGH SOCK 3MM

Protect your feet in all conditions with socks. We've designed this one to be worn comfortably with a wetsuit or drysuit: it adds a layer of warmth in cold waters and prevents blisters while wearing open-heel fins. Booties also protect your feet from scrapes and stings when wading in and out of the water during shore dives.

- **Best Fit:** There's no baggy, unused material due to the right and left foot-specific designs. The Ergo socks fit smoothly for warmth and sensation.
- **Grip:** Silicone print on the sole prevents slipping to help you keep your balance while geared up.
- **Warm:** Glued and blind-stitched seams prevent water from entering. The high top gives you room for overlap with your wetsuit, and 3mm-thick neoprene provides effective insulation.
- **Durable:** The elastic-bound cuff keeps seams from fraying after repeated use and plenty of abuse.

## SeaLife MICRO 3.0 - 4K

The SeaLife Micro 3.0 series of permanently sealed camera is the easiest way to immerse yourself into the world of underwater imaging. The Micro 3.0 camera cannot leak, and is ready to dive right out of the box, simply charge the battery and submerge. The Micro 3.0 requires no maintenance – just wash and clean after use. The camera offers impressive results with its large SONY® 16MP CMOS sensor and 4K Ultra HD video.

The Micro 3.0 has 64GB of internal storage. Image and videos can be transferred to Android or IOS devices via the SeaLife Micro 3.0 App or by USB cable. The SeaLife Micro 3.0 is available as a camera only model, or as a complete set, including either one Sea Dragon 3000F Auto or two Sea Dragon 2500F underwater LED lights.

- 16MP SONY® 1/2.3" Image Sensor
- 100° Wide Angle Lens
- 64GB internal memory
- 4K@30fps or 1080p@120 fps Video
- Easy to use "Piano Key" controls
- JPG and RAW image capture
- Built in underwater color correction
- Available Manual White Balance
- Burst Shooting at full 16MP resolution

**SeaLife****SPORTDIVER ULTRA UNDERWATER HOUSING FOR IPHONE & ANDROID**

SeaLife launches the new SportDiver Ultra Smartphone Housing, designed to accommodate larger Android models like the Samsung S21, S23, and S24 Ultra. Retaining all features of the original SportDiver, it is compatible with the SportDiver iOS and Android app.

This compact, lightweight housing allows divers to capture stunning photos and videos at depths of up to 130 feet (40 meters) and is compatible with most Android models, including Google's Pixel range and all iPhones from iPhone 8 to iPhone 15 Pro Max. Dive deeper and capture more with the SportDiver Ultra!

- Durable optical glass lens port design
- Sealed electronic circuitry
- Easy control
- Access popular camera settings
- Shoot photos or record video
- Dual Leak Avoidance System
- Removable red underwater color-correction filter
- Includes SeaLife SportDiver Smartphone camera app designed by SeaLife
- Playback photos and videos
- Bluetooth® wireless technology
- Holding spring and rubber grip tabs
- Seven (7) 1/4-20 tripod mounts
- Cam-lock sealing mechanism
- Anti-fog design when SL911 Moisture Muncher
- Depth rated to 130ft / 40m

## SEA DRAGON 2000F

The new Sea Dragon 2000F Photo/Video Light delivers 2000 true lumens and a smooth, even 120° wide beam angle. This revolutionary COB LED technology produces an 80 CRI (color rendering index) that mimics natural daylight. Most other LEDs have 70 CRI, missing wavelengths of the visible light spectrum. Uncover colorful reefs and hidden sea creatures with this photo/video light. Includes Flex-Connect Micro tray and grip.

| SL6770 | Sea Dragon 2000F COB LED Photo-Video Light Head (Includes Light Head, Battery & Charger)     |        |

## SEA DRAGON 2500F

The Sea Dragon 2500F uses flat panel COB LED technology to closely mimic natural sunlight, bringing out amazing colors in underwater photos and videos. With a Color Rendering Index of 90, the Sea Dragon 2500F solves the issue of blue underwater photos and videos by giving divers the ability to add light down to 200 feet/60 meters with portable sunlight.

## SEA DRAGON 3000F AUTO

The Sea Dragon 3000F Auto delivers 3000 lumens over 120° smooth, even beam angle without a hot spot. Two red LEDs emit a 88° wide “stealth mode” beam that won’t scare away nighttime sea creatures and preserves your eye’s natural night vision. Powered by a rechargeable 25Wh lithium ion battery, the light burns for a full hour at 100% power at constant brightness with its new COB LED 120° beam angle. Depth rated to 330ft / 100m.

The Sea Dragon 3000F Auto includes a Flex-Connect Grip and single tray. Easily expandable with Flex-Connect Grips, Arms, and Trays.

## SEA DRAGON 3000SF PRO DUAL BEAM

The compact Sea Dragon 3000SF Pro Dual Beam Photo-Video light is the perfect all-around photo, video, and dive light. With a simple one-button push, you can switch from the wide 3000 lumen 120° beam to a narrow 1500 lumen 15° spot beam. For imaging, the spot beam offers many creative opportunities such as to create a narrowly focused snoot or stage spotlight effect. The spot beam also serves as a primary or secondary dive light for most diving applications. Two red LEDs make this the perfect light combination for both day and night dives.

The narrow beam feature has a long effective range making it useful to see in dark areas and discover hiding fish. The Sea Dragon Pro Dual Beam also offers two 180 lumen 88° red LEDs. Red light won’t affect your own eyes’ night vision or scare-off light-sensitive sea creatures, a simple push on the feature button shifts the light from red to the wide beam at 3000 lumens. You are ready in an instant to capture still or video images.

## SeaLife SEA DRAGON 5000+ COB LED

The compact Sea Dragon 5000+ with Color Boost™ Photo-Video light is a powerful photo, video, and dive light that replenishes lost colors underwater by combining red and white light frequencies for a balanced, warm effect. With a simple one-button push, you can switch from a brilliant 5000 lumen to brilliant 5000 lumen beam to the Color Boost feature, which adds warmth by using the light's proprietary red LEDs to a warm color temperature of 3700 Kelvin. Brightness output can also be adjusted to 6000 lumen for a 2 minutes time (to conserve power) and 6000 lumen with Color Boost (4000K Color temp.), 3000 lumen, 1500 lumen, and Red-only "Stealth" mode. The two red LEDs alone are perfect for night dives.

## SeaLife SEA DRAGON UNIVERSAL FLASH

**Universally compatible** with SeaLife and most other cameras using an internal flash, the Sea Dragon Flash feature variable power adjustment and large controls to easily fine tune brightness.

**In Auto Mode**, the flash will automatically adjust brightness for optimal exposure. The Sea Dragon Flash automatically "learns" your camera's preflash.

Includes optical cable, 7mm cable plug, universal flash link adapter, diffuser, single tray, grip and case.

## SeaLife SEA DRAGON DUO FLASH SET 2X

The Sea Dragon Duo Flash underwater lighting set includes two Sea Dragon Flashes, Flex-Connect Dual Tray and Grips – providing powerful lighting to bring out amazingly bright colors in your underwater photos. Reducing backscatter and eliminating shadows with twice the brightness, the Duo Flash is universally compatible with all underwater cameras with an internal flash and standard tripod mount.

- Universal underwater flash
- Variable power adjustment
- Effective UW distance range up to 8ft/2.5m
- Auto Learn Mode easily syncs pre-flash
- Depth rated to 200 feet/60 meters

## SeaLife SEA DRAGON DUO 3000F SET

The Sea Dragon Duo 3000 Flash underwater lighting set includes the Sea Dragon 3000F Auto Photo/Video Light, Sea Dragon Flash, Flex-Connect Dual Tray and Grips – providing versatility for shooting colorful photos or videos. The best still images are shot with a Flash, and the Sea Dragon strobe auto-learns your camera's pre-flash instantly. The Duo 3000 Flash set also includes a Sea Dragon 3000F Auto, which offers Auto Flash Detect Mode – a feature that turns the 3000 lumen light off for one second while your flash is being fired and the camera is capturing a still image. Auto Flash Detect helps eliminate undesirable shadows, color shifts or backscatter. An additional feature of the 3000F Auto light is the Auto Bright Mode which automatically dims the light based on the proximity of the light and subject.

- Two Powerful 3000 lumen LED lights
- 3 brightness modes
- 120° wide beam angle
- Depth rated to 330ft / 100m
- Corrosion-proof light heads
- Removable 25Wh 3400 mAh Li-Ion battery

## AQUALUNG EXPLORER II ROLLER

This rolling luggage accommodates a full dive kit and all your other travel gear. Designed especially for scuba, it has side pockets that will fit our larger fins like the Aqualung X-Large Phazer. Coordinates with the rest of our Explorer II Collection of bags.

- **Easy to Transport:** Rugged wheels get you through the airport easily. Lightweight, extendable aluminum handle. Top handle for lifting.
- **Designed for Scuba:** Side pockets to fit even the largest of fins.
- **Protective:** Internal frame structure is designed to rebound and be shock-absorbent. The V-diamond base, skid rails and eight corner guards keep your gear safe from the airport bag handlers. Zippers accommodate locks.
- **Durable:** Heavy-duty 1680D polyester exterior material is lined with an abrasion resistant PVC-coated. Zippers are corrosion-resistant and zipper pulls are easy to grip. Two-year limited warranty.
- **Stow More:** Exterior and interior pockets for organizing your gear, clothes, and other essentials.
- **Size:** 29 x 20 x 13" (73 x 51 x 33cm)
- **Weight:** 9.5lbs (4.4kg)

## AQUALUNG EXPLORER II DUFFPACK

With its carry-on size, stowaway backpack straps, and mesh drying pocket, this is the most versatile dive pack on the market today. It's designed especially for scuba, with fin straps that hold any size fin. Part of the complete line of Explorer bags to get you completely outfitted for dive travel.

- **Durable:** Made of heavy-duty, 1680D polyester and mesh. Zippers are corrosion-resistant and zipper pulls are easy to grip. Two-year limited warranty.
- **Convertible:** Adjustable shoulder straps double as duffel handles.
- **Designed for Scuba:** Dry your wet accessories while you travel in the duffel's mesh drying pocket. Fin straps on the back of the bag hold any size fin. Protective Internal padding gives the bag shape and protects your gear. Protective V-diamond base and six corner guards. Zippers accommodate locks.
- **Stow More:** Also sports a smaller sunglasses pocket and two exterior pockets.
- **Size:** 24 x 13 x 9" (61 x 33 x 23cm)
- **Weight:** 3.5lbs (1.5kg).

## PSI SOLAR LIGHT

- Hand-held diving torch, using 1\* 6500K color temperature, brightness up to 2500 lumens. Range up to 400 meters.
- There is a 9° spotlight with a luminous angle.
- PWM signal processing + constant current circuit, using a 26650 lithium battery.
- Thickened military grade three hard oxidation, seawater corrosion, scratch resistance.
- The torch has a personalized explosion-proof performance, greatly improving the usability of the torch
- High-quality tempered glass lens, scratch-resistant and wear-resistant, resistant to high bottom temperature, and can withstand temperature differences of 200°C.
- Smooth electroplating reflector cup. After high temperature treatment, laminated alloy reflective film.
- Professional microcomputer chip flashlight with low power consumption, flexibility and reliability.
- Personalized electronic anti-reverse function.
- Fully enclosed side button switch design is easier to operate, with high and low brightness adjustment.
- The shell is made of aviation AL6061-T6 aluminum.
- Three layers of waterproof ring protection, excellent sealing design, waterproof to 150 meters.

PSI MOLA

The PSI mola fins is an entry-level full-foot fin, ideal for light scuba and snorkeling. Even though it is compact and lightweight, the Mola fins is still robust and comfortable.

Technical Features

- Travel-size blade and light weight make the fin ideal for any adventure.
- Blade made of one material offering comfort and durability.
- Comfortable and ergonomic foot pocket designed to accommodate the anatomy of the foot.
- Grip Effect inside the foot pocket to ensure foot stability.
- Rigid sole guarantees optimal protection of the foot and a good power transmission to the blade
- Anti-slip rubber pads.
- Structured side ribs ensure progressive and controlled bending.
- Colors: Black, Powder Blue, Powder Pink
- Sizes available from 36/37 to 44/45

## PSI V-FLEX

New compact and performant open heel snorkelling or diving Fins. Easy to adjust and no boot required. Come with neoprene pad for top comfort.

### Technical Features

- Our new compact and performant open heel snorkelling or diving fins. Easy to adjust and no boot required. Come with neoprene pad for top comfort. You've got your goggles or mask, you've got your underwater camera, but you're not yet set – you still need your fins! Enjoy the ocean or reef getaway with your kids with these adjustable strapped snorkeling fins.
- The strap style snorkel fins adjust quickly to a range of sizes. The oversized rubber heel strap and convenient swivel buckles make these fins optimal for growing feet or sharing with friends and family.
- SMART DESIGN – The flexible blade is comprised of two materials: a soft rubber center section and the main blade. The rubberized center suction cups water with each kick, allowing for maximized agility and minimized effort and fatigue while swimming.
- HEEL TO TOE COMFY – With an oversized rubber heel strap, the neoprene pad and a comfortable blade design, you can enjoy an improved feel and reduced chafing. The soft foot pocket also eliminates the need for a neoprene boot.

## PSI LOOSE FIT RASH GUARD

PSI's collection of Loose FIT rashguards are designed to fit comfortably just like your favorite T-shirt and can be worn in & out of the water. They dry quickly, protect your skin from the sun's UV rays and act as a guard against stings and scratches. PSI's recommends wearing a rashguard under your wetsuit for added comfort while diving or after a dive to protect from the wind.

- The rashguards are SPF 50
- The PSI rashguard material is made from 85% nylon / 15% spandex

## AQUALUNG LOOSE FIT BLACK

NEW 2024

- Loose Fit Design: Thoughtfully crafted for a relaxed, comfortable fit that allows freedom of movement.
- Fabric Composition: Made from 80% polyester and 20% elastane for durability, vibrant colors, and quick-drying performance.
- SPF50+ UV Protection: Shields your skin from sunburn while ensuring comfort.
- Enhanced Comfort: Features a slightly raised neckline for added sun protection during surface activities and to prevent discomfort from your buoyancy compensator during warm water dives. It also offers an extra layer of warmth when used as an undergarment.
- Eco-Friendly Construction: Proudly utilising polyester sourced from 100% recycled bottles, in line with our commitment to sustainability.
- Versatile Use: Our rash guards are designed for solo wear or as a layer under your wetsuit, protecting against both sun exposure and abrasions.
